Every child deserves a family
We envision a world in which no child grows up in an institution

Loving Family

Institution

“Science affirms what we know intuitively, that children belong in families.”

The UN Convention on the Rights of the Child recognizes the family as the fundamental unit of society.
Orphans have **no voice** | **No knowledge** of how to help

Limited **resources** | Child-centric organizations are **focused on survival** | **Low priority**

**Why is this crisis ignored?**
“Tens of millions of children living without parents is the greatest human rights crisis of our lifetime.”

Professor Elizabeth Bartholet, Harvard Law School
Magnitude of the **Orphan Crisis**

143,000,000?
18,000,000?
10,000,000?

The **estimates are hazy.** That’s part of the problem.
How could **BEB** contribute effectively to help solving this **Orphan Crisis**?
We heard and learned from countries all over the world

Armenia
Benin
Bolivia
Brazil
Cambodia
Colombia
Dominican Republic
Ethiopia
Georgia
Ghana
Guatemala
Haiti
Honduras

Kazakhstan
Kyrgyzstan
Moldova
Nepal
Philippines
South Africa
Thailand
Togo

What was identified as the greatest need?
A system to help track the children in care and place them with families
A partnership to produce, distribute, and support the utilization of Children First software, an application designed to help countries registering, tracking, placing and monitoring children living with families.
The first solution that delivers needed information to help countries move children from institutional care and **safely place them into families.**
