| G0 | 229 | 11 | 15 | | 1888 |

Important note

- All the collections of periodic publications are not duplicated yet, a manual task impossible to be done by the system

Its relevance

- It allows:
 - managing documents that cannot be reproduced
 - keeping documents unlikely to be digitized
 - keeping in contact with users who have no access to computer tools
 - facilitating the service to Centers with limited equipment in their services to the public.

The duplication:

- Relates to the reception of documents from other RIIN Participating Centers
- It starts from the request for photocopies of documents to other Centers
- Delivery of available bibliographical references in Full Text
